POLITICS

- The National Government extended the mandatory lockdown for the metropolitan area and main urban centers. Only some activities are returning in CABA, mainly small shops that had remained closed.

INFLATION

- July recorded a 1.9% MoM change in inflation (45.6% YoY), below the REM estimate (2.4% MoM), in line with a context of FX controls and freezed tariffs.

ACTIVITY

- GDP fell 16.6% QoQ w/o seasonal effect in 2Q20, explained by a steep fall in activity in April and moderate recovery in May and June. A rebound is evident in June for industry and construction. Industry increased 13.8% MoM w/o seasonal effect (-6.6% YoY and -14.6% YoY accumulated) showing lower annual falls than in April and May. Construction improved +38.2% in MoM w/o seasonal effect (-14.8% YoY and -37.8% YoY accumulated) after a historical fall. Levels for both sectors remain below those in 2019.

FISCAL POLICY

- Results in July were better than expected. Revenues increased 19.8% YoY and Expenses increased 72.1% YoY, recording a deficit of AR$ 155.5 bn in July (accumulating AR$ 1,045 bn in the first 7 months, 3.7% of GDP).

SOVEREIGN DEBT

- The Government agreed with major bondholder committees, which accumulate 54% of debt stock in foreign law. The average present value of the offer reached 54.8 cents per dollar (EY:10%). This offer was extended, in the same conditions, for USD local law bonds. The deadline to enter the swap was August 28th, 2020. Restructuring greatly reduces cashflows for maturities between 2020 and 2024, from USD 46.0 bn to USD 6.0 bn.
